Introduction to Full Arch Implant Treatment - Restorative Options

The treatment of complete and single arch cases remains a significant priority for dental clinicians and the patients who need this treatment. Many edentulous and hopeless dentition patients want a more permanent treatment option and often request complex full-arch treatments with shorter treatment times and fewer appointments. In this program, participants will learn why practices may want to treat and promote full arch implant therapy in their practice and how to identify and evaluate the appropriate candidates for treatment. This topic will be followed by a discussion of proper case selection, fixed hybrid treatment options, and the patient and practice impact of incorporating full arch treatment options into your practice.

OBJECTIVES

- Identify the need and opportunity to treat edentulous and partially dentate patients with fixed detachable prostheses
- Execute treatment in a simple, efficient, predictable and profitable manner from a team approach
- Provide the dentist and staff the tools to evaluate patients on the treatment options and benefits

DATE & TIME:

Thursday, August 18, 2022
5:30pm–6:00pm *Registration*
6:00pm–9:00pm *Program*

LOCATION:

New York County Dental Society
622 Third Ave
New York, NY 10017

DAVID ABAYEV, MASTER OF DENTAL TECHNOLOGIES

DAVID ABAYEV, MASTER OF DENTAL TECHNOLOGIES, is a Partner at Advanced Dental Laboratory Corporation, a generational boutique dental technology laboratory established in New York City over 30 years ago, founded by his father and mentor Boris Abayev, Master Ceramist. Advanced Dental Laboratory has led the way in advancements in restorative dental technology and implants by working alongside their dental clients. Members of the American Academy of Implant Dentistry, National Association of Dental Laboratories as well as other organizations that help us maintain and stay at the peak in our industry. Prior to getting involved with education directly, David served as the scientific coordinator for the 6th meeting of the World Congress for Oral Implantology. A consensus meeting of implant leaders from all over the world. Years later continuing the legacy by working closely and advancing skills and techniques to achieve the most optimal restorative results for their clients. David's beta testing and scientific consulting in the biotech industry has kept Advanced Dental Laboratory stay at the forefront of technology in the dental ecosystem.
